

## DRAGON(-STRONG) TIPS AND TRICKS FOR THE WHOLE FAMILY

The excitement grows, the anticipation increases - and we want to give you the best advice, to make your adventure day perfect!

### THE PERFECT PREPARATION AT HOME

- THE PHANTASIALAND-APP**  
Be sure to download the Phantasialand-App onto your phones! By specifying the age and size of your children, you can already see which rides your children can already have fun on.
- PACKED STURDY SHOES?**  
You definitely need sturdy shoes for our attractions. Sandals are also okay in summer, as long as they sit firmly on your feet and can't fall off. So you can explore the Adventure Trail, climb the giant bird Avoras or enjoy the ride on our roller coasters without any problems!
- DON'T FORGET A CHANGE OF CLOTHES!**  
Change of clothes is a must for all water lovers, big and small: This way, you can have fun at all our wet rides without any worries. Also very important: Pack socks for the great slide in the Family-Fun-House das verrückte Hotel Tartüff!
- MAY I GO OUTSIDE AND COME BACK DURING THE DAY?**  
Yes, of course! You'll get an invisible stamp on your hand when you go out, which we can see when you come back in. Doesn't that sound phantastic?

### WHEN YOU COME IN

- ON-SITE PLANNING**  
Be sure to grab one of our park guides directly at the entrances. This will ensure you always find the right route, even with a stroller. Also helpful: you will find a size chart for all attractions here, too.
- CAN WE STORE OUR BELONGINGS SOMEWHERE?**  
Absolutely! There are spacious lockers both in Berlin near the Pferdekarrussell and in Mexico at the exit of the Colorado Adventure. You can get the key bands for a small fee nearby.

- THE CHILDREN'S WRISTBANDS**  
At the Family Service and the entrances, you can get practical wristbands for your children, where you can write your phone number and your child's name. If you get separated, we can reach you and reunite you.

### NOW THE ACTION SHALL START!

- HEIGHT MEASUREMENT**  
Different minimum heights apply to our attractions. To avoid having your kids measured repeatedly, have them measured at Guest Services at the beginning of your adventure day. Then, you'll receive a colored wristband with the height recorded on it. When you show this at the attractions, you will immediately know if your child is allowed to ride.
- WHERE CAN I SEE THE WAIT TIMES?**  
Plan your day at ease with the wait time alert in the app. You'll receive a push notification when the wait times for your favorite attractions are low. It's also worth regularly checking the various information monitors.
- THE BABY-SWITCH**  
One parent enjoys the ride while the other stays with the toddler. Then you switch - without having to wait in line a second time! Awesome, right? Just ask the first available staff member at the attractions about the Baby-Switch.

- STROLLER PARKING**  
If your little ones want to join you on a ride, you can conveniently park the stroller at various designated spots in the park, such as to the left of the entrance to the Würmling Express.

- CUDDLE TIME WITH THE DRAGONS**  
Our dragons love to pose for photos and give hugs to your children. You can visit Phenie in the Fantasy themed area, Drago in Berlin. Quetzal is usually dancing around Mexico, while Wang feels most at home in China Town. Kroka awaits you with open arms in Deep in Africa.
